

## Dean, School of Advanced Technology Algonquin College

Algonquin College is changing the world – one learner at a time. Headquartered in Ottawa, on the traditional unceded territory of the Algonquin Anishinaabe People, the College is one of Canada’s leading publicly funded polytechnic institutes, with close to 20,000 full-time and over 45,400 continuing education students. The College has a strong focus on providing a future-focused polytechnic education that embraces and values the diversity of its learners and academic teams and fosters a flexible learning environment that will meet their needs and those of an evolving Canadian economy. It is within this context that the College is seeking its next **Dean, School of Advanced Technology.**

Reporting to the Senior Vice-President Academic, the Dean is accountable for contributing to the academic well-being and growth of the College and for providing academic and administrative leadership, supervision, support, and direction to four academic chairs, three associate chairs, approximately 150 full-time professors and support staff, and an estimated 250 part-time professors and support staff in the School of Advanced Technology. The Dean is accountable for the planning, development, delivery, and ongoing review of the faculty’s full-time and part-time post-secondary programs, including bachelor’s degrees in applied studies, joint collaborative degrees with a local university, and apprenticeship programming within the School. The Dean is also responsible for ensuring that the programs/courses are responsive and relevant to the needs of the students and the community. As a professional engineer, the Dean is accountable for the delivery of all the engineering degree programs and their accreditation with the Canadian Engineering Accreditation Board. Finally, the Dean is a key member of the College Leadership team and plays an important role as a representative of the College in the broader community by developing and maintaining mutually beneficial partnerships, networks, and linkages with key external stakeholders.

As a well-qualified candidate, you have a master’s level degree in a relevant area and possess an active Canadian Professional Engineering License. You bring senior-level leadership and management experience in post-secondary education and have demonstrated abilities to provide strategic and operational leadership during times of significant transformation. You have experience working with external partners to develop strong and mutually beneficial relationships that provide students with impactful experiential learning opportunities and raise the profile of the College in the community. A consensus builder with strong communications and interpersonal skills, you can articulate a vision and execute on strategic plans. Finally, your exceptional people leadership skills and student focused approach will be highly useful in this role as will your experience working in large and complex unionized environments.

Algonquin College values diversity and is an equal opportunity employer. The College encourages applications from all qualified individuals. In accordance with the AODA Act, accommodation will be provided by both Boyden and Algonquin College throughout the recruitment process.

Candidate review and selection will begin on March 8<sup>th</sup> and continue until the recruitment is completed. The salary range for this role is \$142,803 – \$190,402,

with a targeted hiring salary of \$175,170.
