

Principal, Akerley Campus

We are looking for a senior leader to create a dynamic environment for the people who learn and work at NSCC's Akerley Campus. You will need to be equally adept at inspiring people to do their best; community relations; fiscal management; human resources management; operational planning resulting in the delivery of excellent post-secondary education. Providing daily leadership to more than 869 full-time students and a staff group in excess of 154 will require outstanding communication and team-building skills. Fortunately, you have been honing these skills all your working life.

We are Nova Scotia Community College. Our mission is to help "build Nova Scotia's economy and quality of life through education and innovation." We offer over 140 advanced skill programs in five academic schools, serving the entire province through a network of 13 campuses, 3 learning centres and a vibrant eCampus. Eighty-eight percent of our graduates are employed, most in their field of study; 94% have chosen to live and work in Nova Scotia.

Our newest Principal must have ten years of relevant experience and have served recently in a senior leadership role within a large organization, preferably a post-secondary institution. You have a graduate degree and if you have experience working with diverse communities, it would be a great asset. You are a highly collaborative leader who builds and motivates teams to do amazing things. You can manage multiple projects and objectives, while building and realizing a vision for the Akerley Campus of NSCC. You have a passion for helping people achieve their dreams through adult education and life-long learning. And you are looking for the challenge of a lifetime.

Nova Scotia Community College recognizes the positive impact of flexible working arrangements. You can review our FlexWork Policy at <https://www.nsc.ca/about/publications/policies-procedures/policies/flexwork-policy.asp>.

NSCC makes things happen. We're growing the economy of Nova Scotia, we're producing highly skilled workers, and we're building capacity in communities. How are we doing it? By providing the most career-oriented education available in Nova Scotia today; by maintaining close links to community and to industry; and by inviting talented equity-minded people to join NSCC's team. Consider being a part of excellence in learning and having the chance to help build Nova Scotia's future while building your own.

Interested in applying for this exciting opportunity? Please follow this [link](#). Want to receive more information? Please email nikki.berrigan@nsc.ca and request a copy of the position's briefing note.

The deadline for applications is February 27, 2024 at 11:59 PM (AST).
